Vibes

Oct 2016 - Present

Founder & Lead Developer

Platform which allows you to share the songs you love with the world.

I have worked on creating the team and building both building the APIs and the Android app completely from scratch.

For more info visit vibes-app.com.

AnyPark LLC

Jul 2016 - Jun 2018

Lead Android Developer

App that can find available parking spaces.

I have built the Android app from scratch, developing complex layouts and transitions, with security and scalability always in mind.

For more info visit anypark.net.

Hazy Project

Aug 2014 - Feb 2016

Founder & Developer

Custom firmware based on the Android Open Source Project.

The main goals were focused on implementing new features, bring our own design system to Android and optimize performance and stability of the firmware.

Lumine

Aug 2018

Android Developer

Note taking Android app.

The app was meant to be simple and have a beautiful crafted User Interface.

For more info visit: matteolobello.it/projects/?lumine
